

CONSUMER PRICE INDEX (CPI) JANUARY 2011: PRESS RELEASE

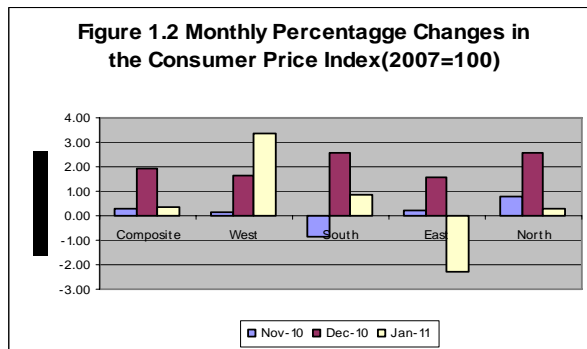

Released on Friday February 25 at 1:00 pm

JANUARY 2011 MONTHLY INFLATION RATE INCREASES SLIGHTLY

The combined monthly CPI (2007=100) for January 2011 increased from 157.15 per cent in December 2010 to 157.69 per cent in January 2011 resulting in a 0.34 per cent increase in inflation rate this month. Similarly, the monthly rates of inflation increased in all the regions except the Eastern region. Western Area (0.23 per cent), Northern Region (0.31 per cent), Southern region(0.85 per cent) while the monthly rate of inflation decreased in Eastern Region(-2.29 per cent) comprising of two centers, Kenema(-1.78 per cent) and Kono (-0.14 per cent) during the same period.. Nevertheless, the composite year-on-year inflation rate (2006/2007=100) decreased by 4.32 percentage points from 17.84 per cent in December 2010 to 13.52 per cent in January 2011.

The year-on-year rates of inflation decreased in all the regions when the year-on-year rates of inflation for December 2010 are compared with those for January 2011. In Eastern region the year-on-year rate of inflation decreased from 21.42 percent in December 2010 to 14.24 percent in January 2011, in Northern region from 15.14 per cent to 12.84 per cent, in Southern region from 20.05 to 14.79 percent and in Western Area from 17.76 per cent to 14.69 per cent during the period under review.

Considering the old CPI series (1992=100), the year-on-year rates of inflation decreased in all the regions except Freetown when the year-on-year rates of inflation for December 2010 are compared with those for January 2011. In Makeni the year-on-year rate of inflation decreased from 20.84 percent in December 2010 to 19.26 percent in January 2011, in Kenema from 22.91 percent to 19.83 percent and in Bo 20.31 from 19.91 per cent but increased in Freetown from 18.40 per cent to 18.48 per cent during the same period.

FACTORS INFLUENCING CHANGES IN THE MONTHLY RATE OF INFLATION

The combined monthly CPI for January increased from 157.15 in December 2010 to 157.69 in January, 2011 resulting in a 0.34 percent increase in inflation rate this month.

There was a general increase in the price level in all the four regions except the Eastern region affecting all components of the index. On a composite basis, there were increases in the indices for the following groups; food(0.32 percent), tobacco(0.73 percent), furniture and household equipment(4.54 percent), recreation and culture(0.79 percent) and miscellaneous goods and services(1.40 percent).

The food products which prices increased this month include; meat (1.86 percent), oils and fats(7.19 per cent), milk, cheese and eggs(0.31 percent) and sugar(0.15 percent) while prices of rice, bread remained constant. However, the food products which prices decreased include; fruits(-7.46 percent), fish and seafood(-4.27 percent) and vegetables(-2.32 percent). Again, the general rise in the Consumer Price Index may also be attributed to consumers speculation, which further increased the prices of the products in the CPI basket.

Notes: The all urban National Consumer Price Index (Composite Index) measures the change in prices, on average, from month to month, of the goods and services bought by households, in Sierra Leone including all expenditure groups and both families and single persons. The index includes sampled outlets from five urban towns representing the four geographic regions of the country; Kenema and Koidu were purposefully selected to represent the Eastern province, Bo represents the Southern Province, Makeni represents the Northern Province while Freetown represents the Western Area. The weights applied in the computation of the composite index were obtained from the 2003/2004 Sierra Leone Integrated Household Survey (SLIHS) with the weights updated to May 2007 and prices referenced to the same period. The weights refer to the total urban household consumption in the entire country and the urban towns selected for price data collection represents about 80 percent of all urban household consumption. Hence the index is herein referred to as the all urban National Index. The basket consist of 400 goods and service popularly consumed by all inhabitants of Sierra Leone. These items are divided into the 12 functions of the classification of Individual Consumption by Purpose (COICOP). All prices collected are the prevailing retail market prices from six (6) markets in the Greater Freetown area, three (3) Markets in Bo Town, three (3) markets in Kenema Town, three markets (3) in Koidu and two (2) markets in Makeni Town for weekly prices. Other outlets are used for monthly items whose prices are less likely to fluctuate rapidly. Geometric mean formula is used to compute the mean of prices observed for each product by elementary aggregate (group of similar products).
