

CONSUMER PRICE INDEX (CPI) July, 2017: PRESS RELEASE

Released on Monday August 21, 2017 at 1:00 pm

JULY 2017 MONTHLY INFLATION RATE INCREASES SLIGHTLY

The national monthly CPI (2008=100) increased from 200.85 per cent in June, 2017 to 202.87 per cent in July, 2017 resulting in a 1.01 per cent increase in inflation rate this month. Similarly, the monthly rates of inflation increased in all the regions. Western Area (0.75 per cent), Northern Region (1.05 per cent), Southern region (1.44 per cent) and the Eastern Region (1.21 per cent) comprising two centers, Kenema (0.63 per cent) and Kono (1.8 per cent) during the same period. Also, the national annual inflation rate for July, 2017 increased slightly from 19.14 per cent in June, 2017 to 18.56 per cent in July, 2017. Again, the year-on-year rates of inflation decreased in Northern region from 19.76 per cent in June, 2017 to 17.58 per cent in July, 2017, in Southern region from 17.43 per cent to 17.12 per cent, and in Eastern region from 23.73 per cent to 22.96 per cent while the year-on-year increased in Western Area from 18.07 per cent to 18.33 per cent.

Figures 1a & 1b below illustrate the movement in the year-on-year rates of inflation and monthly rates of inflation respectively for the National CPI and other CPI centers while table 1 below shows the National CPI from the months of July, 2016 to July, 2017 and the 12 month change in the CPI for the main index groups.

FACTORS INFLUENCING CHANGES IN THE MONTHLY RATE OF INFLATION

The national monthly CPI (2008=100) increased from 200.85 per cent in June, 2017 to 202.87 per cent in July, 2017 resulting in a 1.01 per cent increase in inflation rate this month. This reflects a monthly increase that is greater than the previous month, meaning that prices are increasing at a higher rate. There was a general increase in the price level in all the four regions which affected most of the components in the CPI basket. At the national level, the prices of food especially bread and cereals, meat, fish and seafood, oils and fats, fruits and vegetables etc. increased in all centers probably due to the rainy season which has contributed to the significant increase in the index for food (153 per cent). The other indices that slightly increased were health (0.87 per cent), housing (0.19 per cent), recreation and culture (0.24 per cent), restaurant and hotel (0.64 per cent), furnishing and household maintenance (0.70 per cent), clothing and footwear (0.46 per cent) and communication (0.55 per cent).

Column description

Column o : COICOP 12 functions

Column a : CPI weighting

Column b : CPI of the given month (m) for previous year

Column c : CPI of the given month (m -3) for current year

Column d : CPI of the given month (m -2) for current year

Column e : CPI of the given month (m -1) for current year

Column g : CPI monthly change in % $((f-e) \times 100 / e)$

Column h : CPI 3 months change in % $((f-c) \times 100 / c)$

Column i : CPI 12 months change in % $((f-b) \times 100 / b)$.

The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by most households, in Freetown, Bo, Kenema and Makeni including all expenditure groups and both families and single persons. Prices are collected for 251 items. All prices collected are the prevailing retail market prices from six (6) markets in the Greater Freetown area, three (3) Markets in Bo Town, three (3) markets in Kenema Town and two (2) markets in Makeni Town for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. The National Index was computed by aggregating the CPI for the four index towns previously published separately with different base periods. The old CPI series for Bo, Kenema, Makeni and Freetown were rebased to base year 2003, Computation methodology changed from the Modified to the Traditional Laspeyres, and transformed into the Classification of Individual Consumption by Purpose (COICOP) with 12 functions. The separate center CPIs were aggregated at the sub-class level at which level new weights were also introduced to obtain the Interim National Index.
