CORRECTIONS:

Our compilation system, which uses Microsoft Excel, encountered some flaws when creating the 2023 compilation folders early this year. This led to an unnoticed error in the estimation of Food and Non-alcoholic beverages and hence, the national aggregates for the months of January, February and March 2023. The error was picked up during the estimations for April 2023 and has now been cleared and estimates revised as below. As this is an important macroeconomic indicator, we regret any inconvenience this might have caused.

4.0 IMPACT CONTRIBUTIONS OF COICOP DIVISIONS TO ANNUAL INFLATION RATE (YoY)

Annual National Consumer Price Inflation (year-on-year) for April 2023 stood at 43.05 percent, up by 1.31 percentage points from 41.74 percent in March 2023. Of the 43.05 percent, the following COICOP divisions made the most impacts relative their weights: Food and Non-alcoholic Beverages (21.09), Furniture, Household Equipment and Household Maintenance (3.40) and Restaurant and Hotels (3.52).

Figure 2: Impact contributions of the COICOP divisions to inflation rate

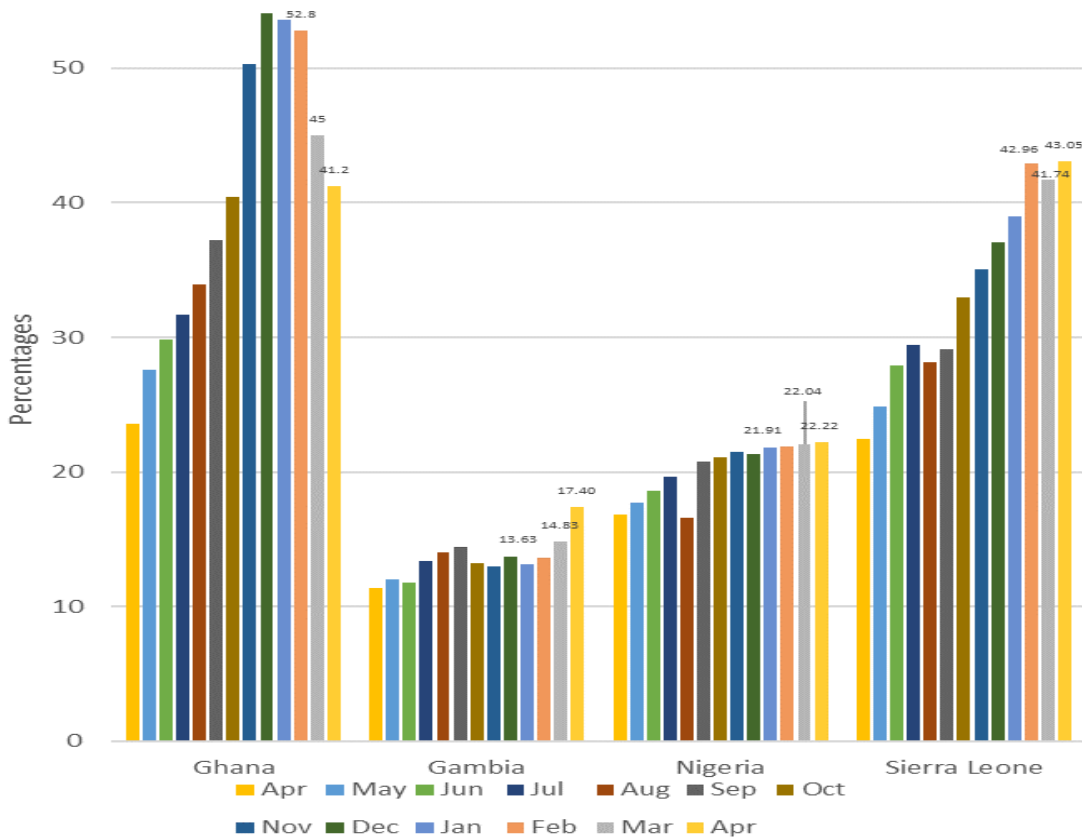

Concluding Note: We noted an increase in the year-on-year national inflation rate in April 2023; after a slight drop in March 2023; which could be attributed to increases especially in Health, Alcoholic beverage, tobacco and narcotics, furnishing household equipment and routine household maintenance and Food and non-alcoholic beverages. Further observations show that the national estimate is above the estimates of the Western, Eastern and Northern regions' but below the Southern and North-west regions.

5.0 CPI COMPARISON FOR SELECTED ECOWAS MEMBER STATES

Only Ghana reported decreased inflation rate for the month of April 2023, while Sierra Leone, Nigeria and The Gambia reported moderate increases. All countries are now reporting double digit inflation, with Sierra Leone, 43.05 and Ghana, 41.2, reporting very high inflation rates.

Figure 3: Recent inflation rates of selected ECOWAS countries

NOTE: The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by households, in Freetown, Bo, Kenema, Kono, Makeni, Port Loko-Kambia and include all expenditure groups. Prices are collected for least 440 items. All prices collected are the prevailing retail market prices from six (6) markets in Freetown and, three (3) Markets each in Bo, Kenema, Kono, Makeni, Port Loko-Kambia and for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. We are using the Modified Laspeyres formula to compute indices according to the Classification of Individual Consumption by Purpose (COICOP) with 12 functions. Sierra Leone has recently rebased the CPI to December 2021, increased the number of items in the basket and expanded the coverage to North-West region.
