Figure 4: Recent inflation rates of selected ECOWAS countries

NOTE: The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by households, in Freetown, Bo, Kenema, Kono, Makeni, Port Loko-Kambia and include all expenditure groups. Prices are collected for least 440 items. All prices collected are the prevailing retail market prices from six (6) markets in Freetown and, three (3) Markets each in Bo, Kenema, Kono, Makeni, Port Loko-Kambia and for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. We are using the Modified Laspeyres formula to compute indices according to the Classification of Individual Consumption by Purpose (COICOP) with 12 functions. Sierra Leone has recently rebased the CPI to December 2021, increased the number of items in the basket and expanded the coverage to North-West region.
