

## CONSUMER PRICE INDEX (CPI) March, 2016: PRESS RELEASE

Released on Monday April 25, 2016 at 1:00 pm

### MARCH 2016 MONTHLY INFLATION RATE INCREASES SLIGHTLY

The national monthly CPI (2007=100) increased from 261.25 per cent in February, 2016 to 263.12 per cent in March, 2016 resulting in a 0.72 per cent increase in inflation rate this month. Similarly, the monthly rates of inflation increased in all the regions. Western Area (0.53 per cent), Northern Region (1.38 per cent), Southern region (0.94 per cent) and the Eastern Region (0.81 per cent) comprising two centers, Kenema (0.49 per cent) and Kono (1.27 per cent) during the same period. Also, the national annual inflation rate for March, 2016 increased slightly from 8.73 per cent in February, 2016 to 8.77 per cent in March, 2016. Again, the year-on-year rates of inflation increased in Western region from 8.52 per cent in February, 2016 to 8.56 per cent in March, 2016, in Northern region from 10.69 per cent to 11.35 per cent, in Southern region from 8.18 per cent to 8.41 per cent and in Eastern region from 9.78 per cent to 9.96 per cent.

Figures 1a & 1b below illustrate the movement in the year-on-year rates of inflation and monthly rates of inflation respectively for the National CPI and other CPI centers while table 1 below shows the National CPI from the months of March, 2015 to March, 2016 and the 12 month change in the CPI for the main index groups. Considering the old CPI series (1992=100), the year-on-year rates of inflation increased slightly in Freetown from 9.24 per cent in February, 2016 to 9.27 per cent in March, 2016, in Bo from 9.46 per cent to 10.43 per cent and Kenema from 9.78 per cent to 10.02 per cent while the year-on-year rate of inflation decreased in Makeni from 10.08 per cent to 9.11 per cent during the same period.

### FACTORS INFLUENCING CHANGES IN THE MONTHLY RATE OF INFLATION

The national monthly CPI (2007=100) increased from 261.24 in February, 2016 to 263.12 per cent in March, 2016 resulting in a 0.72 per cent increase in inflation rate this month. This reflects a monthly increase that is greater than the previous month, meaning that prices are increasing at a slightly higher rate. The increase in the price level for March 2016 was as a result of the decrease in the supply of most domestically produced food products especially the vegetables reinforced by the further depreciation of the leone as against the foreign currencies especially the US dollar.

There was a general increase in the price level in all the four regions which affected most of the components in the CPI basket. At the national level, there were increases in the indices for the following groups; food and non-alcoholic beverages (0.60 per cent), housing, water, electricity, gas & other fuels (0.55 per cent), clothing and footwear (1.09 per cent), furnishing, household equipment and household maintenance (1.23 per cent), health (0.93 per cent), restaurant and hotels (0.81 per cent), transport (0.18 per cent) and communication (2.07 per cent).

Column i : CPI 12 months change in % $((f-b) \times 100/b)$ .									

The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by most households, in Freetown, Bo, Kenema and Makeni including all expenditure groups and both families and single persons. Prices are collected for 251 items. All prices collected are the prevailing retail market prices from six (6) markets in the Greater Freetown area, three (3) Markets in Bo Town, three (3) markets in Kenema Town and two (2) markets in Makeni Town for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. The National Index was computed by aggregating the CPI for the four index towns previously published separately with different base periods. The old CPI series for Bo, Kenema, Makeni and Freetown were rebased to base year 2003, Computation methodology changed from the Modified to the Traditional Laspeyres, and transformed into the Classification of Individual Consumption by Purpose (COICOP) with 12 functions. The separate center CPIs were aggregated at the sub-class level at which level new weights were also introduced to obtain the Interim National Index.
