All five regions went downwards: Western Area from 9.18 percent in May 2025 to 8.94 percent in June 2025; Eastern region from 3.98 in May 2025 to 3.82 percent in June 2025; Southern region from 6.67 percent in May 2025 to 5.77 percent in June 2025; Northern region from 9.35 percent in May 2025 to 8.84 percent in June 2025 and North-west region from 5.22 percent in May 2025 to 4.22 percent in June 2025.

From the table above, it is observed that only the Western and Northern regions' inflation rates are above the national estimate for the month of June 2025; all other regions' estimates are below. It is further observed that all five regions continue to report single-digit inflation rates.

The figures below illustrate the yearly (1A) and monthly (1B) inflation rates at regional levels.

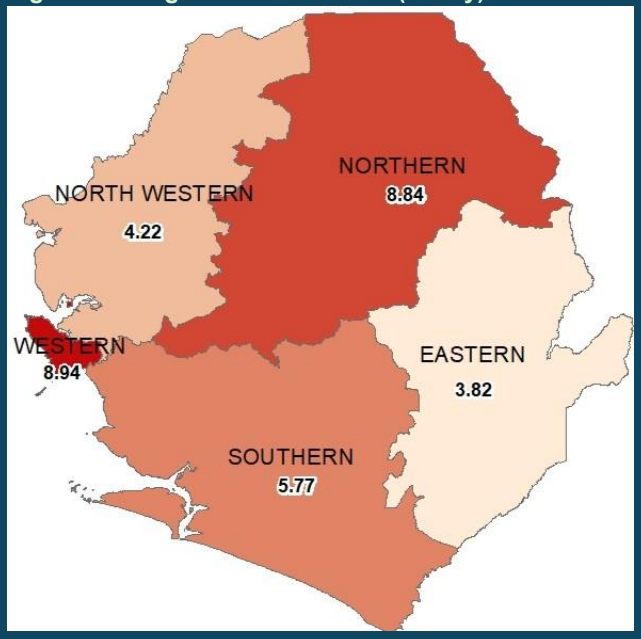

Figure 1B: Regional Month-on-Month (Monthly) inflation rates

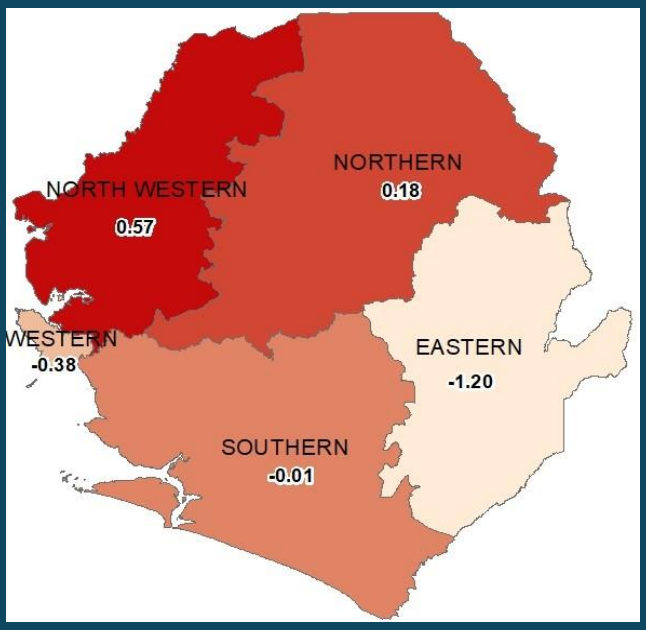
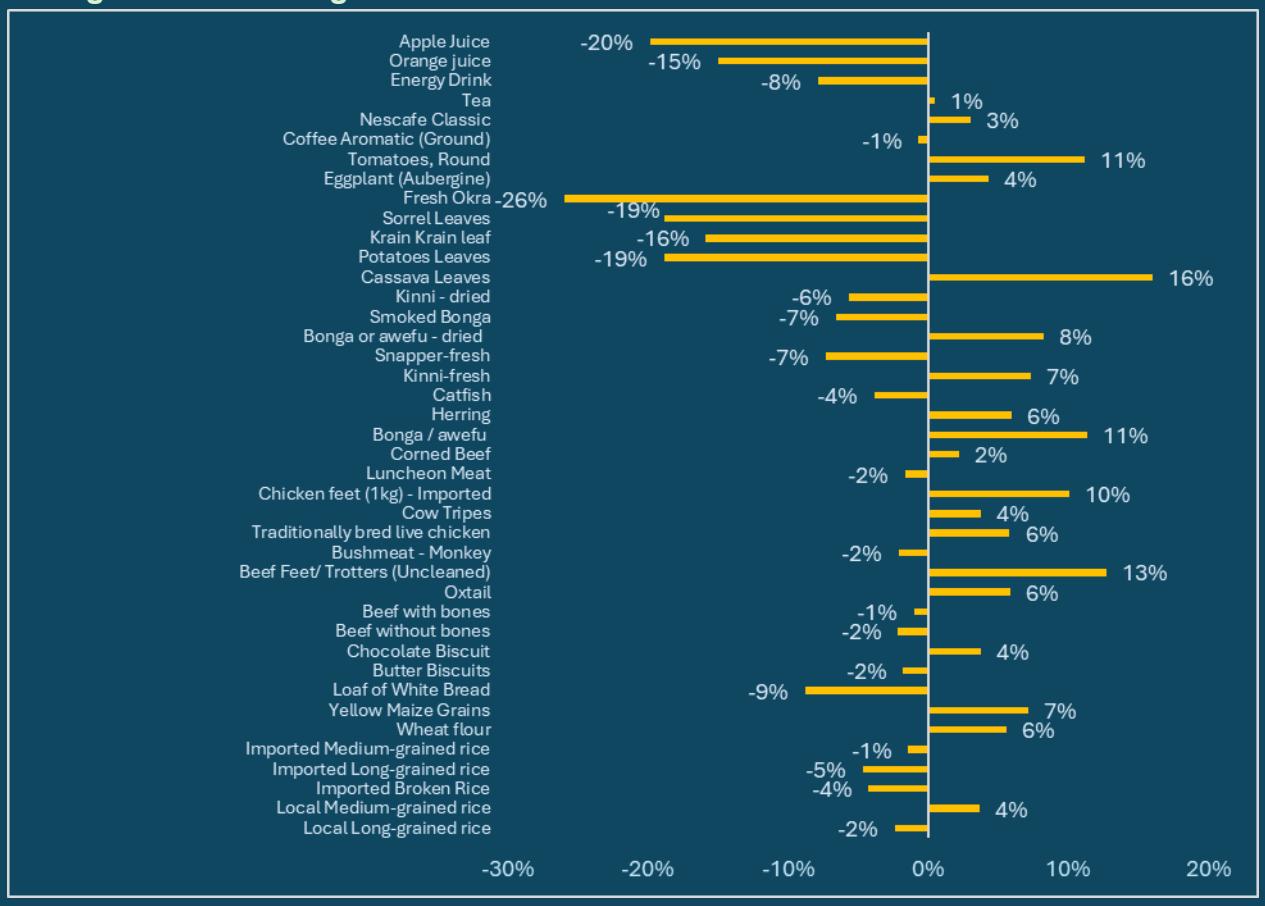


3.0 FOOD[3] AND NON-FOOD[4] COMPONENTS

Food and non-alcoholic beverages inflation decreased by 0.79 percentage point from 5.42 percent in May 2025 to 4.63 percent in June 2025. In this division, food inflation decreased by 1.17 percentage points from 3.78 percent in May 2025 and determined the direction of change for this division because it has a bigger weight. Meanwhile, the non-alcoholic beverages inflation though increased by 10.57 percentage points from 43.43 percent in May 2025, could not make an impact because of its smaller weight.

Figure 2.1: Changes in the rates of selected Food and non-alcoholic items



The non-food component shows inflation decreased from 9.29 percent in May 2025 to 9.12 percent in June 2025; that is 0.17 percentage point decrease. In this component, five divisions went up, five went down and one unchanged.

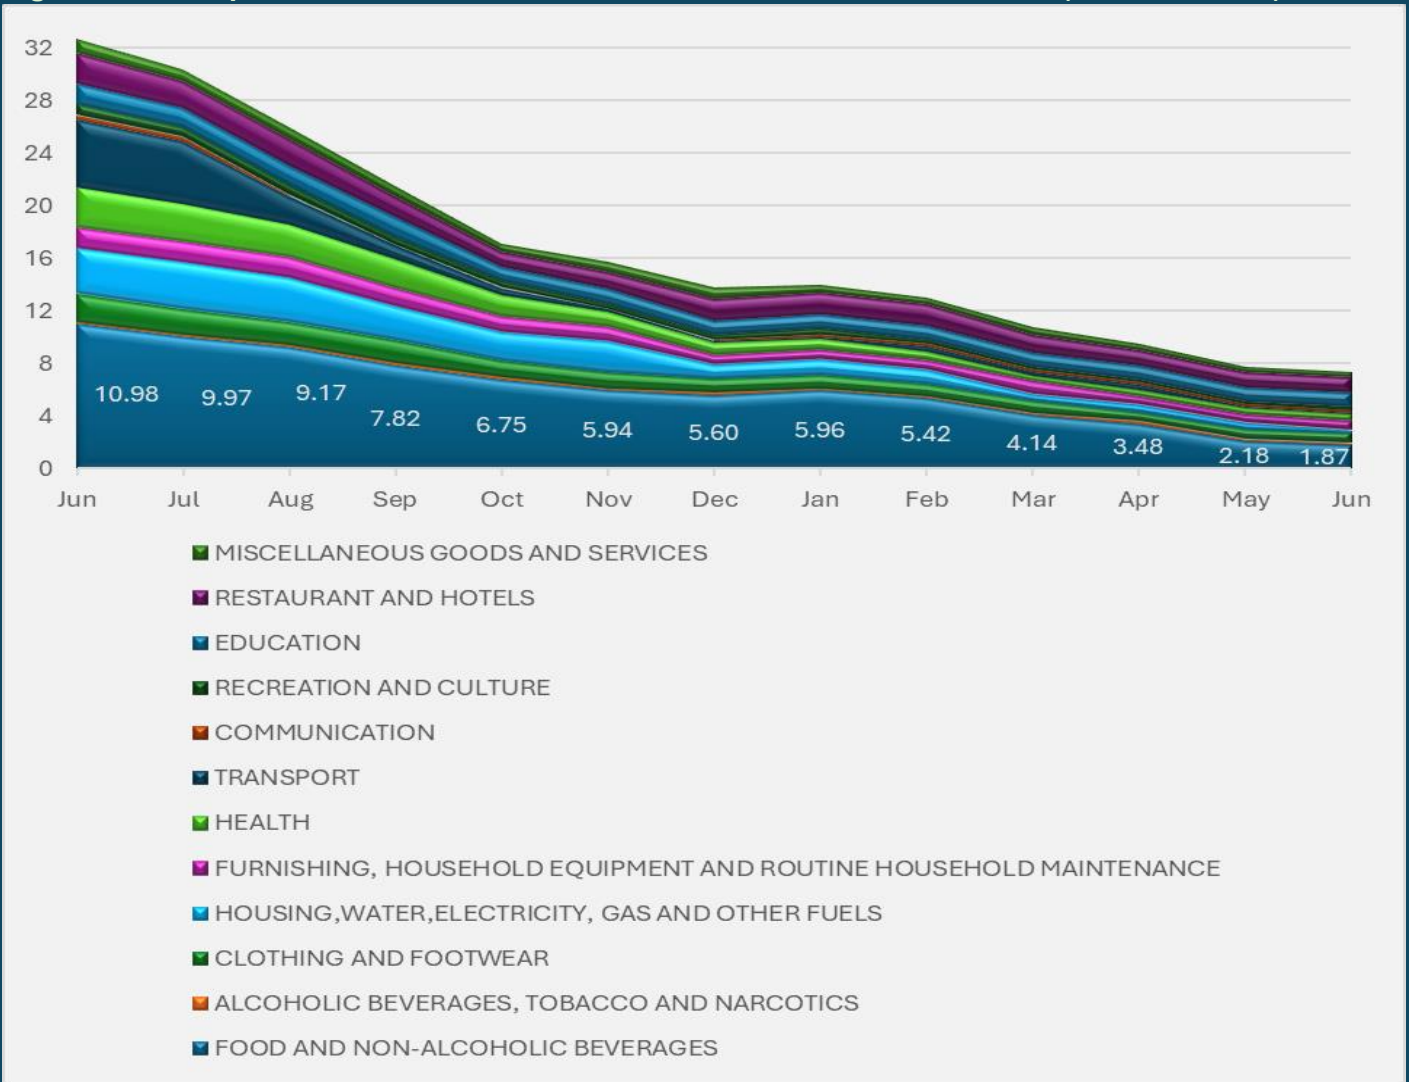
4.0 IMPACT CONTRIBUTIONS OF COICOP DIVISIONS TO ANNUAL INFLATION RATE (YoY)

The annual National Consumer Price Inflation (year-on-year) for June 2025 stood at 7.10 percent, down by 0.45 percentage point from 7.55 percent in May 2025. Impact analyses, relative to the weights of the divisions, show Food and non-alcoholic beverages continues to make the most impact on inflation even though it declined in the month of June 2025.

Figure 3: Impact contributions of the COICOP divisions to inflation rate (Jun24 – Jun25)



Concluding Note: The June 2025 estimate shows that the single digit inflation rate hit in April 2025 is sustained. We noted that the headline inflation rate dropped for six COICOP divisions and for three regions in June 2025; and all the five regions continue to report single-digit inflation rates. Additionally, food inflation has dropped to a five-year low and its impact has dropped by almost six times (5.89) within 12 months. Finally, we observed that the national estimate is above all other regions' estimates, except for the Western and Northern Regions' estimates.

NOTE: The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by households, in Freetown, Bo, Kenema, Kono, Makeni, Port Loko-Kambia and include all expenditure groups. Prices are collected for least 440 items. All prices collected are the prevailing retail market prices from six (6) markets in Freetown and, three (3) Markets each in Bo, Kenema, Kono, Makeni, Port Loko-Kambia and for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. We are using the Modified Laspeyres formula to compute indices according to the Classification of Individual Consumption by Purpose (COICOP) with 12 functions. Sierra Leone has recently rebased the CPI to December 2021, increased the number of items in the basket and expanded the coverage to North-West region.
